

Main technical features

Model : Quattro

Main ironing roller diameter **1000Ø**

Pressure roller Quattro(4) pressure system

Pressure system 0 ~ 6 kg/cm² , pneumatic cylinder
6 ~ 100kg/cm² , hydraulic cylinder

working width 3200 mm

overall dimension 5350(w)x2800(L)x2110(H)

working speed 3~11 M/min

Max pressure 100kg/cm² X 3

Max temperature 190 °C

spreading system Double belt & Double speed system

Installed power 74kw/h

Air compressor 6bar

netweight 13800kg

touching area between 1st bottom roller & 4th bottom roller is 630mm
